TESTED LAWN GRASS FORMULAS

Minimum Order 5 Lbs.

Prices net, subject to
change, f.o.b. New York
5 lbs. 10 lbs. 25 lbs. 100 lbs.

FINEST DENSE SHADE FORMULA \$3.10 \$6.00 \$14.50 \$57.00

Our very finest formula. Considerably over 50% Chewings Fescue blended in nice proportion with high quality Kentucky Blue Grass and Red Top. Like our other finer blends there is neither clover nor ryegrass in it.

FINEST SELECT BENT FORMULA 3.00 5.90 14.25 55.00

A time tested mixture which may be recommended without hesitation for the very finest lawns. There is no white clover or ryegrass in it. The blend consists chiefly of high grade Kentucky Blue Grass, a very liberal percentage of Astoria Bent and Red Top.

REGULAR SHADY MIXTURE 2.80 5.50 13.50 53.00

Our best low priced formula for shady locations. It consists of about equal parts of fine Chewings Fescue, Red Top and Kentucky Blue Grass. Good results may be expected from this seed.

HIGH GRADE UTILITY MIXTURE 2.50 4.70 11.50 46.00

This blend of Choicest Red Top and Kentucky Blue Grass contains a very little high germinating White Clover. We like to recommend this formula for large lawns.

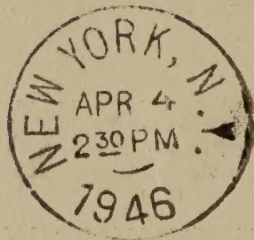

SPECIAL LANDSCAPE MIXTURE 2.00 3.90 9.50 38.00

Here is a blend popular with landscapers who want both a quick and a permanent stand. It contains a trace of white clover.

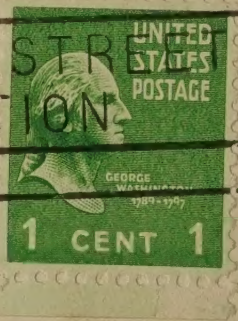

STANDARD ECONOMY MIXTURE 1.75 3.40 8.25 32.00

About a third Ryegrass for immediate results. Other seeds in the mixture are Kentucky Blue Grass and Red Top in almost equal proportions and a trace of White Clover. For the money there is no better formula.
